INTERESTS AND HOBBIES

Travel And Exploring

I love experiencing new things, finding new places and meeting new people. I find places with personality and learning about new cultures fascinating and exciting. Hiking has recently become one of my passions, especially with a group of great people!

Drawing And Painting

One of my favourite past-times. I love classic-style drawing and mostly do portraits of people, as I find people and their unique and different characteristics fascinating. Painting helps me relax and gives me time to get away and think. The final result after weeks of sitting behind an easel working on one thing gives me great fulfillment.

Photography

Just like my sketchpad, I also always carry a camera with me and irritate everyone around me by constantly stopping to take photo's of surroundings and random things. My camera really comes in handy with my love of travelling and exploring. It also comes in handy for family events and occasions, where I am the designated photographer, but I also practice photography more professionally in my spare time.

Moving Pictures/Film

I have a deep appreciation for film. I watch a lot of movies and series in my spare time as well as part of my studies; always trying new things that aren't as mainstream or popular. I love animation films, Tim Burton and Hayao Miyazaki are my idols. I also enjoy more serious, deep and thought-provoking films and series. I do, however, have an infatuation with dark- and quirky comedy.

SOFT SKILLS

Artistic **Creative** *Good Listener* **Attention To Detail**
Patient **Enthusiastic** *Ambitious*
ADVENTUROUS **Eccentric** **HARD** **INSPIRED**
PLAY **WORKING**
Quirky **STRESS** **Learn** **PASSIONATE**
Open Minded **FULL** **MANAG** **Easily**
Caring **EMENT** **DEDI-**
OVER **Team player** **CATED**
Helpful and Friendly **Easily**
ACHIEVER **Compassionate** **LOVING**

PERSONAL STATEMENT

I am driven and motivated, always ready to work. I pick things up-, and learn new skills, easily.

I am a great team player, but also work just as well on my own. Time, pressure and deadlines don't scare me. I execute my work as precisely and accurately as possible, and I have a good eye for details (which sometimes proves to be downfall, as I am a perfectionist).

My creative and somewhat abstract mind has no end.

I am pro-active in my approach, and enjoy working in an energetic and supportive team of peers.
